PROJECTS

Personal Resume / Portfolio Website	2025
HTML · CSS	
- Built a fully responsive personal portfolio from scratch with clean UI, custom typography, and mobile-friendly layout. - Deployed on GitHub Pages with a version-controlled codebase.	
Restaurant Website Clone	2025
HTML · CSS · Bootstrap 5	
- Recreated a real-world restaurant website UI with responsive grid, navbar, hero section, menu cards, and footer. - Applied Bootstrap components (carousel, cards, navbar) to achieve a polished, production-like design.	

ACHIEVEMENTS & ACTIVITIES

- Completed a structured Data Structures & Algorithms course in Java covering core topics and problem-solving techniques.
- Finished HTML, CSS, and Bootstrap — currently advancing to JavaScript and full-stack development through a coaching programme.
- Maintaining an active GitHub profile documenting all personal projects.
